

UMED AZHER

Software Developer (Angular Developer)

+91 8421324371 | umaidazher@gmail.com | [LinkedIn](#) | [GitHub](#) | Pune, Maharashtra

PROFESSIONAL SUMMARY

Angular Developer with 4+ years of experience building scalable and high-performance enterprise web applications using **Angular (v21+)**, **TypeScript**, and **RxJS**. Skilled in developing **responsive UI**, implementing state management (**NgRx**), and optimizing application performance through **lazy loading** and modular architecture. Experienced in **integrating RESTful APIs** and Spring Boot backend services, Strong collaborator in **Agile environments with CI/CD pipelines**, focused on delivering efficient and user-centric solutions.

TECHNICAL SKILLS

Programming Languages: TypeScript, JavaScript, HTML5, CSS3

Frontend & Frameworks: Angular (v21+), Angular Material, NG-ZORRO

Angular Concepts: RxJS, NgRx, Lazy Loading, Reactive Forms, Dependency Injection, Component Lifecycle, API Integration, Performance Optimization, Responsive Design

Backend & Frameworks: Spring Boot, Spring Security, RESTful APIs

Databases & Environments: Oracle SQL, MySQL

Tools & Others: Git, GitHub, Postman, CI/CD, Kubernetes

PROFESSIONAL EXPERIENCE

Compliance Cart - Software Developer (Angular Developer)

May 2025 - Present (Pune, Maharashtra)

- Designed and developed scalable Angular applications using modular architecture, improving performance by 40%.
- Used **Angular Routing, HTTPClient, and Dependency Injection** to build reusable and maintainable components.
- Implemented **RxJS operators such as map, switchMap, and debounceTime** for efficient asynchronous data handling.
- Applied **lazy loading and code optimization techniques** to reduce initial load time.
- Integrated **RESTful APIs** to ensure seamless frontend-backend communication.
- Worked in an **Agile environment with CI/CD pipelines** for continuous integration and deployment.
- Performed **unit testing and debugging** to ensure application stability and performance.

Technologies Used: Angular, TypeScript, JavaScript, HTML5, CSS3, jQuery, AJAX

Intellect Design Arena - Systems Engineer

Nov 2021 - May 2025 (Hyderabad, Telangana)

- Built enterprise-grade Angular applications with optimized change detection and **lazy loading**, improving performance by 40%.
- Developed dynamic and responsive UI components, enhancing customer experience and engagement by 60%.
- Integrated **RESTful APIs** for efficient data flow and seamless system communication.
- Designed and developed key business modules, increasing user engagement by 15%.
- Developed analytics tools that reduced data processing time by 70%.
- Collaborated with cross-functional teams in an **Agile environment** to deliver high-quality software solutions.

Technologies Used: Angular, TypeScript, JavaScript, HTML5, CSS3, RxJS, REST APIs

PROJECTS

Aayuvi (ABDM Integration – Compliance Cart)

- Engineered scalable and secure frontend modules for a digital health platform aligned with **Ayushman Bharat Digital Mission (ABDM)**.
- Developed **Consent Management System** using **Angular, TypeScript, RxJS, and NG-ZORRO** for **secure healthcare data access and authorization control**.
- Built **interactive Record Request system** to fetch patient data from multiple providers via **RESTful API integration**.
- Implemented **real-time request lifecycle tracking** (Pending → Completed) using **reactive programming principles**.
- Designed **reusable, modular UI components** enhancing **user experience, maintainability, and scalability**.
- Integrated **secure RESTful APIs with backend microservices (Spring Boot-based)** ensuring **efficient and reliable communication**.

Relationship Manager Office

- Developed scalable and modular frontend dashboards (Basket Holdings, Account Opening) using **Angular, TypeScript, and RxJS**.
- Integrated **Spring Boot-based RESTful APIs** for real-time data retrieval, improving application responsiveness and data consistency.
- Implemented **reactive forms, dynamic components, and state-driven UI logic** for enhanced user interaction and maintainability.
- Designed fully responsive UI using HTML5, CSS3, and Angular Material, ensuring seamless cross-device compatibility.
- Optimized API consumption and frontend performance, reducing load time and improving overall user experience.

Customer Personal Office (E-KYC Module)

- Led development of secure **E-KYC onboarding module** using **Angular, TypeScript, and Reactive Forms** with dynamic validation.
- Integrated **Spring Boot REST APIs** for customer verification, document processing, and backend workflows.
- Implemented **dynamic form generation and validation logic**, improving data accuracy and reducing user errors.
- Enhanced performance by 30% through optimized form handling, API calls, and efficient state management.
- Built responsive and accessible UI components, ensuring smooth onboarding across desktop and mobile platforms.

EDUCATION

Bachelor of Engineering | Aug 2020 | **SGB Amravati University, Amravati** | 73.28%

AWARDS

Spot Award, Intellect Design Arena (Aug 2022) | Spot Light Award, Intellect Design Arena (Aug 2023)
